### Hyper Volumizing Lip, Water Free Emulsion®

**Description:**

Hyper Volumizing Lip, Water Free Emulsion® is an amazing water-free lip product that provides an instant lip filling effect. Fiflow® BTX provides freshness upon application with intense cellular renewal properties. It plumps up the skin and creates smoother, fuller lips.

**Key ingredients:**

- Creagel® Crystal HCO is an anhydrous gel based on thickened lipids produced from Coconut Oil. It is a viscosity modifier that improves photostability of cosmetic products. It leaves a light and smooth after feel.
- Creagel® Crystal ID is a highly volatile agent with a non-transfer effect, which is ideal for long-lasting colour care products such as liquid lipsticks.
- Fiflow® BTX is neither water soluble, nor oil soluble liquid. It is a gas carrier, which allows artificial breathing of the skin. It enriches the oxygen level of the skin and gives an instantaneous dermal filling effect. It is ideal for all skin care products and especially lip treatments.

Ingredient	Phase	INCI Name	Qty%	Function
Creagel® Crystal HCO	A	Hydrogenated Coconut Oil (and) Ethylene/Propylene Copolymer	30,50%	Viscosity modifier, Film former, Waterproof agent
Creagel® Crystal ID		Isododecane (and) Ethylene/Propylene Copolymer	30,50%	Film former, Drying agent, Viscosity modifier
Creasil® 12 TTH		Trimethylsiloxysilicate (and) Isododecane (and) Alcohol (and) Hydrogenated Rosin	2,00%	Long lasting application, Drying agent
Creagel® Crystal AF		Hydrogenated Polydecene (and) Ethylene/Propylene Copolymer	22,00%	Viscosity modifier, Anhydrous base, Film former
Fiflow® BTX	B	Perfluorohexane (and) Perfluoroperhydrophenanthrene (and) Perfluorodecalin (and) Perfluorodimethylcyclohexane	15,00%	Anti-age, Smoothing Effect, Muscle relaxant, Gas carrier

**Procedure:**

Stir phase A until homogeneous.  
Add phase B.  
Homogenize for 2 minutes at 4000 rpm.

**Efficiency test:**

Hydratation has been increased by 39,4% 5 minutes after application  
Wrinkle decrease Delta D of 24,5% after 5 minutes  
Wrinkles decrease Delta W of 17% after 5 minutes  
Zeta Potential: -49,3 mV

**ISO 16128 Indexes:**

Natural Origin Content: 26,07%  
Natural Content: 0,4%

Organic Origin Content: 0%  
Organic Content: 0%

**Important:**

Creagel® Crystal ID can be heated but only very briefly.  
Creasil® 12 TTH should not be heated.  
Fiflow® BTX should not be heated and airless packaging is recommended for the end product.  
Fiflow® formulas should be made at 10°C.
