Anti-Frizz Serum

Description:

Anti-Frizz Serum is a unique hair care that was developed to hydrate and tame wild hair. Applied before or after drying the hair, this product helps styling and avoids frizzing. The hair is smooth, silky and healthy looking.

Key ingredients:

- Creagel® Crystal II Brassica is an anhydrous gel based on thickened lipids produced from Rapeseed. It is a viscosity modifier that improves photostability of cosmetic products. It leaves a light and smooth after feel without greasiness.
- Dedraflow® 5 Luxe is a SVHC-free silicone substitute based on a mixture of Hydrogenated Polyisobutene and Hydrogenated Vegetable Oil. It is an ultra soft volatile emollient, which provides a soft feel and an excellent spreadability to the formulation while improving its photostability.
- Vegeflow® 100 ISO 16128 is a naturally-derived dimethicone substitute that provides softness, emolliency and lubricity to formulations. It forms a non-occlusive film and works as a moisture barrier without blocking the skin.

Ingredient	Phase	INCI Name	Qty%	Function
Creagel® Crystal II Brassica	A	Brassica Napus Seed Oil (and) Dextrin Palmitate	54,90%	Texturizer, Viscosity modifier, Nourishing
Vegeflow® 100 ISO 16128		Hydrogenated Vegetable Oil	17,00%	Natural Emolient, Dimethicone Replacement, Silicon Feel
