Liquid Gold Body Oil

Description:

"Liquid Gold Body Oil" is a marvelous body oil that was developed to smooth and protect the skin while providing an intense and luminous glow. Vegeflow® 10 ISO 16128, combined with Creagel® Crystal ID give softness and smoothness without feeling greasy or tacky. This skin care product is ideal for summer time thanks to Creastar® pearlescent pigments.

Key ingredients:

- Vegeflow® 10 ISO 16128 is a naturally-derived dimethicone substitute that provides softness, emolliency and lubricity to formulations. It forms a non-occlusive film and works as a moisture barrier without blocking the skin.
- Creagel® Crystal ID is a viscosity and rheology modifier that forms a very light film on the skin to protect it from dehydration. It increases photostability of formulas and provides an even pigment distribution.
- Creastar® Primary pearlescent pigments give fabulous glow and luminosity. They are ideal for make up products, especially eye-shadows and lipsticks as they are so colourful and vibrant, but they can also add some fun to skin care products such as face masks or body oils.

Ingredient	Phase	INCI Name	Qty%	Function
Psiflow® 6	A	Hydrogenated Vegetable Oil	41,80%	Emollient, Silicone substitute
Creagel® Crystal ID		Isododecane (and) Ethylene/Propylene Copolymer	26,90%	Texturizer
Creastar® Primary Gold WL 100		Calcium Aluminum Borosilicate (and) Titanium Dioxide (CI 77891)	1,90%	Shiny effect
Creastar® Primary Sunstone WL 60		Calcium Aluminum Borosilicate (and) Titanium Dioxide (CI 77891) (and) Red 40 (CI 16035)	6,40%	Shiny effect
Vegeflow® 10 ISO 16128		Hydrogenated Vegetable Oil	23,00%	Emollient, Silicone substitute

Procedure

Weigh phase A and put under stirring until homogenization.

Efficacy Testing

2 subjects - On the hand:
Hydration increase of 12% after 5 minutes of application.
