

PFI5076UV 18/08/20	Ebony & Ivory Live Together in Skin Harmony Foundation
Description:	Key ingredients:

"Ebony & Ivory Live Together in Skin Harmony Foundation" is a colour care product that was designed especially for darker skin tones, or to be used during summer. It is extremely soft to the touch due to SVHCfree silicone substitutes and protects the skin from the sun thanks to Creasperse® Zn AF UVA/UVB 70. When applied on the skin, this grey foundation turns into a natural nude shade thanks to Colourspheres® SIL Colours.

- Creasperse® Zn AF UVA/UVB 70 is a ready-to-use predispersed UV-filter based on Zinc Oxide and Alphaflow® UV. It that provides high UVA protection and is ideal for foundations as it provides emolliency and softness without leaving a white cast on the skin.
- Creagel® Crystal 10 ISO 16128 is an anhydrous gel based on natural thickened lipids. It is a transparent viscosity modifier and film former. It forms a pseudoplastic film on the skin, which leaves a silky and smooth after feel.
- Colourspheres<sup>®</sup> SIL Colours are spherical texturizing powders based on silica beads and available in different colours. They improve wear of powder applications and provide coverage as silica beads release colourants.

Ingredient	Phase	INCI Name		Function
Vegeflow <sup>®</sup> 10 ISO 16128	А	Hydrogenated Vegetable Oil		Silicone substitute, Emollient
Creasperse <sup>®</sup> Zn AF UVA/UVB 70		Zinc Oxide (and) Hydrogenated Polydecene (and) Polyhydroxystearic Acid	20,00%	UV-filter
Hectone <sup>®</sup> HVO	В	Hydrogenated Vegetable Oil (and) Disteardimonium Hectorite (and) Propylene Carbonate		Thixotropic, Prevents sedimentation
Creagel <sup>®</sup> Crystal 40 ISO 16128	С	Hydrogenated Vegetable Oil (and) Ethylene/Propylene Copolymer		Texturizer, Rheology modifier
Creaspheres® SIL WL 9	D	Silica	8,92%	Mattifying agent, Softness
Colourspheres® SIL Red-25	Е	Silica (and) Iron Oxides (CI 77491)	2,53%	Colourant
Colourspheres® SIL Yellow-25		Silica (and) Iron Oxides (CI 77492)	3,86%	Colourant
Colourspheres® SIL Black- 70		Iron Oxides (CI 77499) (and) Silica	1,20%	Colourant
