Sparkling Moonlight

Description:

"Sparkling Moonlight" is a mesmerizing face and body lotion that hydrates and protects the skin without greasiness or tackiness. It leaves a beautiful sparkling glow on the skin due to Creastar® Travelling Primary Blue Purple WL 300.

Key ingredients:

- Alphaflow® 50 is a SVHC-free emollient based on Hydrogenated Polydecene. It provides softness and lubricity to formulations and forms a non-occlusive film on the skin, which acts as a moisture barrier.
- Dedraflow® HVO is a natural SVHC-free silicone substitute based on Hydrogenated Vegetable Oil. It improves photostability of formulations and imparts extreme softness upon application, without greasiness.
- Creastar® Travelling Primary Blue Purple WL 300 is a beautiful pearlescent pigment. As it gives fabulous shine and luminosity, it is ideal for makeup products, but it can also add some fun to skin care products.

Ingredient	Phase	INCI Name	Qty%	Function
Alphaflow® 50	A	Hydrogenated Polydecene	65,30%	Soft skin feel
Dedraflow® HVO		Hydrogenated Vegetable Oil	28,75%	Emollient
Ethylene/Propylene Copolymer	B	Ethylene/Propylene Copolymer	4,95%	Texturizer
Creastar® Travelling Primary Blue/ Purple WL 300	C	Calcium Aluminium Borosilicate (and) Silica (and) Titanium Dioxide (CI 77891) (and) Tin Oxide (CI 77861)	1,00%	Pearlescent pigments

Procedure

Weigh phase A, put under stirring and heating at 95-100°C.
At temperature add phase B under stirring.
Leave under stirring and heating until homogenization.
When the mixture is homogeneous, let it cool under slow stirring.
Then add phase C.
