

FORMULATION DAY

New Tested Performance Formulation

Smooth Lip Balming® - PFI7672CS

Smooth Lip Balming® is the perfect ally for winter season. It protects the **lips** from external aggressions. Crealanol® combined with waxes and SVHC-free emollients, leaves the mucosa soft and **smooth**, without tackiness.

Key Ingredients

VegeLeam® D5 is a green biomass technology. It is used in UV mineral filters and foundation formula. It creates a long-lasting film with a very pleasant texture. Its volatility is ideal for high efficiency, with very negative zeta potential.

SMOOTH LIP BALMING®

PFI7672CS

Key Ingredients

Creabase® MSO ISO 16128 is a natural wax based on Meadowfoam Seed Oil. It is ideal for W/O emulsions as it deeply smooths, soothes and softens dry and sensitive skins. It also increases the stability of skin care products.

SLOW SKIN FACTOR DIFFUSION®

This image shows a thick, glossy, light-brown lip balm swatch on a white marble background. A red line with a dot at the end points to the top edge of the swatch. To the left of the swatch, there are three horizontal red lines, each with a dot at the end, pointing towards the swatch. The text 'SMOOTH LIP BALMING®' is in the top left, 'The Innovation Company®' is in the top right, 'PFI7672CS' is in the bottom right, and 'SLOW SKIN FACTOR DIFFUSION®' is in a dark red bar at the bottom.

SLOW SKIN FACTOR DIFFUSION®

This image is identical to the one above, showing a thick, glossy, light-brown lip balm swatch on a white marble background with the same annotations and text.

Key Ingredients

Crealanol® is ideal for skin care formulations, especially lip products, as it repairs and protects mucosa. It leaves a non-sticky, glossy film.
