## SPECTROCOLORIMETER

It measures subtle color differences that the human eye cannot distinguish with precision. It enables a complex and comprehensive color analysis of a sample by breaking down reflected or transmitted light into a spectrum according to wavelength, allowing for a quantitative and objective assessment of colours.

## THE NILE GLOSS DIAMOND GOLD PFI7715CC

### Key Ingredients

**VegeLeam® D5** is a green biomass technology.

It creates a long-lasting film with a very pleasant texture.

Its volatility is ideal for high efficiency, with very negative zeta potential.

## THE NILE GLOSS DIAMOND GOLD

PFI7715CC

### Key Ingredients

**Creagel® Crystal TF DM 350** acts as a thickening agent, creates a non-tacky film with water resistance and gives shine to the texture.

## THE NILE GLOSS DIAMOND GOLD

PFI7715CC

### Key Ingredients

**Crealanol® Velvet ISO 16128 HH2B®** is a film-forming and long-lasting agent. Crealanol® Velvet ISO 16128 HH2B® is ideal for skin care formulations, especially lip products, as it repairs, protects mucosa.

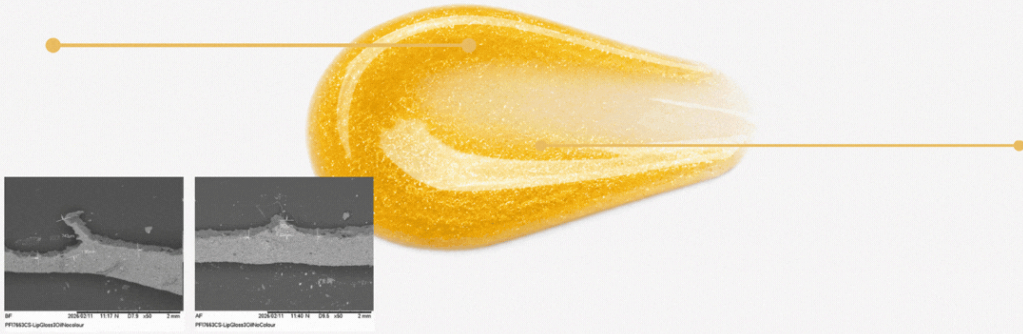

It leaves a non-sticky, glossy film.
